## General Comment

To Whom It May Concern:

I am a consultant for farmers in Rockingham and Augusta counties in Virginia. I am extremely concerned that the EPA should conduct a non-biased economic impact analysis before adopting any new regulations for farmers in this area.

I also feel that the EPA should not move ahead with costly mandates based on flawed modeling and data.

Additionally, I feel that no additional regulations should be enacted until the science and the data supporting such have been proven.

Thank You

Hahns Kanode
